Performance Tracker

Unlike others, we don't claim that our research is good. However, we let you decide through our past performance figures which are displayed minutely in our research reports. So what's stopping you. Use the Performance Tracker tool given here now and select the product or section whose trading calls you would like to evaluate. You just need to choose the date range from 1 day to 3 months & submit. Judge our Research Calls Performance yourself.

Our Last 1 month Performance Score Card

		Calls Given	Hits	Misses	Pending Status	Success %	ROI % on Investment Period	Annualised ROI %
Equity	Positional Calls	23	15	6	2	71%	13%	205%
	Intraday Calls	32	18	14	0	56%	3%	94%
Future & Options								
Currency								
Commodities	Agri calls							
	Non Agri Calls							
Overall All Products		55	33	20	2	128%	16%	299%

Wait, it doesn't end here rather its just the beginning. Lets mover further & see how our trading calls in different product sections have performed. You may select the duration or period for which you want to see the reports score card & also select the product type for which you would like to assess the reports. Do it now & once you are done, please don't forget to rate us for this initiative.

Assumptions :

- Profit or Loss in Equity calls have been calculated assuming the base investment of nearest amount of Rs 1 lac which can be invested in a particular stock.
- In all Derivatives contracts, the base of calculation is one lot of that contract.
- ROI percentage is the return generated from that call over the number of days for which the investment was made.
- Annualised ROI percentage is the return amount & investment period calculated over a standard time of one year.
